ADVANCED STEM WINTER PROGRAM

The Mississippi Public School Consortium
for Educational Access
and the Global Teaching Project present:

Advanced STEM Winter Program

Mississippi Civil Rights Museum
Jackson, MS
January 18, 2020

WELCOME

TO THE MLK 2020 ADVANCED STEM WINTER PROGRAM.

The Global Teaching Project, together with the Mississippi Public School Consortium for Educational Access, is proud to present the Advanced STEM Winter Program on this historic weekend, marking the 91st birthday of Dr. Martin Luther King, Jr.

Our AP® Access Pilot Program, which is now in its third year, seeks to provide access to advanced, rigorous coursework for all students, no matter their circumstances. Our effort is rooted in the very same traditions that we honor on this day: equality for all Americans.

We are honored to help host today's program at the Mississippi Civil Rights Museum in Jackson. The Museum "shares the stories of a Mississippi movement that changed the nation" and highlights Mississippians' "fight for equality that transformed the state and nation."

In the spirit of Dr. King's enduring legacy, today we celebrate our past, present, and future students, faculty, and staff, who dare to challenge themselves and dream of a bolder and brighter future for themselves and their communities. You are Mississippi's future leaders. And your hard work and perseverance will inspire change in your schools, your communities, the state of Mississippi, and beyond.

Matt Dolan

CEO, Global Teaching Project
